THE OPTIMUM PRESENTATION TOOL

The TS-360 is a lightweight, portable tire stand with a 360° rotating hub. Designed to demonstrate Ultraseal's sealing capabilities on a rotating tire. Quick disconnect pins allow for easy disassembly and transporting. This stand utilizes a standard passenger or light truck tire/rim assembly. Manufactured of heavy duty 1 1/2" tubing with a chrome finish. The hub assembly is a universal design and will accommodate a wide variety of rim bolt patterns.

NOTE: tire, rim, lug nuts and lug bolts are NOT INCLUDED.

Shipping weight - 15 lbs.

Carton dimensions - 24 X24 X7
